Moscow, January 4.

**T**HE Day after the Czar's Arrival here, all the Ministers, both Foreign and Domestick, went to Court, to pay him their Compliments. After which, his Majesty conferred with several of his own Ministers, but those from foreign Courts were admitted to Audience some on that Day, and the rest the Day following. M. Westphale, the Danish Envoy Extraordinary, was the first who was admitted to congratulate the Czar, and to acquaint him with the Particulars of his Commission, to which he received a favourable Answer in general Terms, and was referred to the Ministry to confer with them as to the Particulars of his Negotiation. The Czar appears to be very easy and contented since his Arrival, which makes it hoped he will grant his Pardon to several condemned Criminals, and distribute a Sum of Money to the Poor, but it is not believed his Pardon will extend to such as are condemned for the late Conspiracy. The last Accounts from Persia say, that Miri-Weyt keeps very quiet with his Army, without offering any Hostility to our Troops, having promised to behave so till he receives an Answer to the Letter he wrote to the Czar when at Astracan; but as our Court has no Intention to allow him his Demands, 'tis likely he will shortly begin his Ravages; however, our People having had time enough to secure themselves within their Fortifications, and to Post themselves advantageously, 'tis not doubted but they will be able to withstand him. The Turkish Ambassador who is arrived here having opened the Subject of his Commission to Baron Schaffiroff, makes pressing Instances to be speedily dispatched, notwithstanding he has been allowed 1000 Rubles a Week since his Arrival, besides Provision for his Kitchen.

*Vienna, Feb. 3.* The Counts Staremburg and Kinski are gone back to Presbourg, to hasten the Conclusion of Affairs in the Dyst in order to its rising before Easter, against which Time the Emperour intends to set out for Bohemia. Yesterday his Imperial Majesty held a Council of State, and an Express was dispatched to Cambrai, where, as 'tis said, the Negotiations go on favourably, the Court of Spain being disposed to commit the Decision of its Affairs with the Emperour to a certain Northern Potentate. Advices from Constantinople intimate, that warm Disputes have lately passed between M. Dierling the Imperial Resident at Constantinople, and one of the principal Ministers of the Ottoman Porte.

*Turin, Feb. 6.* Their Sardinian Majesties have been indisposed lately with a Cold, but are now perfectly well. Madame Royale begins to recover her Strength, and 'tis hoped she will in a short Time be well enough to appear again in Publick. The 5th Instant being the Prince's Royal's Birthday, the Queen went to the Opera the preceeding Evening; after which, his Royal Highness supped in publick with 16 Persons of Quality belonging to the Court, and the Princes with 12 Ladies; the Court being in Mourning, prevented other publick Diversions. An Encampment of Horse and Foot this next Spring is still talked of. The King has appointed Count de Maffé to go to Paris to compliment the King of France on his Majority.

*Hague, Feb. 12.* The States of Holland have yet taken no final Resolution in Relation to the Payment of the Debts of North-Holland, there being still some Difficulties started up by the Towns of Shiedam and the Brill, which 'tis said will be

adjusted before the States part. They are now busy with their Admiralties, upon the Design of fitting out a Squadron for the Mediterranean, which in a Manner is determined shall consist of five small Men of War. The Zealanders have wrote to them, that their Deputation will be soon ready to come hither, in order to chuse jointly with them a President for the Grand Council; but have insinuated at the same Time, that the said Deputation cannot so soon be instructed as to the Stadthoudership, the Regency of the Province not being yet unanimous in that Point. 'Tis probable their Design is to observe what Attention the States of Holland will have for their Recommendation to the Place of President, and that the chusing M. de Binkeschock, whom they have recommended, may be the Condition of their entering into the Measures of Holland concerning the Stadthoudership.

An infallible Remedy for broken-winded  
Horses, that hath been publish'd and sold many Years before any  
Counterfeits in other Forms appeared; and highly commended from  
one Friend to another; the vast Quantities that have been sold don't  
also verify the Truth of its Efficacy and Virtues, which most partic-  
ularly cure them, after many Things premis'd have been ineffectual, to  
a Wonder, in a small Time, without Confinement, by attenuating and  
opening the Globules of the Lungs dried up, and all Palpates obstruc-  
ted by Humours dripping thereon, occasioned by hard Riding, Colds,  
&c. It causes presently a free Perpiration, renewing its Force, Vi-  
gour, and Length again, as well as ever; it immediately, cures those  
Horses only a little touch'd in their Wind, as also all continued  
Coughs, Colds, Wheezings, &c. being excellent in preventing many  
other Distempers incident unto them, by unctaining, preserving and  
continuing a good Breath; and in a Word, by this very Medicine  
alone, many Horses have been made so perfectly sound, and have  
been sold and valued at 10 and 12 l. which by being broken-winded,  
would not before be sold for 3 or 4 l. Is sold at Mr. Lockee's Toy-  
shop at the Griffin the Corner of Bucklersbury in the Poultry, at  
s. 6 d. the Quart Bottle, with Directions for taking it.
